About me

Informatics Engineering student with experience in Java. Enthusiastic about creating applications and web services. Looking forward to collaborating with the community of software development and put my skills into practice, as well as contribute and share my code with the world.

EDUCATION

INFORMATICS ENGINEERING at Universidad de Guadalajara: CUCEI – currently in the last year
Related classes: Data structures, Databases, Algorithms, Web programming, Software engineering and Linux Servers

COLLABORATIVE PROJECTS

ChronoSS: Website donated to CUCEI. It automates the attendance process in social service units through previously authorized devices, as well as the control of hours of service. Sign up and session control with facial recognition.
Technologies: **HTML | CSS | JS | Bootstrap | FaceAPI**

Color Timer: Android application developed with java. Uses camera and notifications module to help users have control and calculate the clear difference between the current hair color of their customers and a target color.
Technologies: **Java | SQLite**

Save John: Desktop videogame for Windows. Platformer videogame with two levels, three different types of enemies with their own upgrades. Health bar, dead screen and ending.
Technologies: **C# | Unity**

PROJECTS IN PROGRESS

Cucei Mobile new interface: Android client developed with java for Social Service Unit. So far a few screens have been implemented. Requirements pending.

Silvia Care: Distributed system. Application in development using Android Studio and java language. API in development using Spring Boot.
Technologies: **Java | Spring Boot | Android studio**

RELEVANT COURSES

- REST API with Spring Boot | **Spring Academy 2024**
- Interactive SQL | **Desafio Latam 2024**
- Backend with Java | **Oracle Next Education 2023**

SOFT SKILLS
- Good team player
- Constant ethics growth
- Sense of urgency
- Excellent customer service

TECHNICAL SKILLS
- Languages: **Java**, Javascript
- Tools: Git
- Databases: MySQL
- Framework: Spring Boot
- Linux servers

LANGUAGE
- English - Intermediate B1

INTERESTS
- Java
- Web services
- Android apps

PROFESSIONAL EXPERIENCE

Elderly Caregiver   **2023 – Present**

- Caring for a 67-year-old woman in physical rehabilitation
- Teamwork and constant organization with other caregivers
- Track of blood sugar and pressure
- Physical therapy

Worker of Taco stand Don Pepe (Family Entrepreneurship)   **2020 – 2022**

- Customer service
- Taco cart cleanup
- Delivery
- Budget and salary management

Data capture clerk and Manager assistant at Inteltrafico / RAVE Servicios Integrales   **2018 – 2019**

- Photo infraction processing
- Remittance reports
- Making appointments

General assistant and Main cashier at Office Depot México   **2017 – 2018**

- Customer service
- Support stationery, cash area and storage tasks
